

***Amidst of the emergence of new mechanisms of aggression against the Sovereign Peoples,
the workers of the world stand up in the face of imperialist attacks.***

We denounce the latest actions implemented by *Empresas Comercial Nutresa* in Colombia, which has dedicated itself to adopting inhumane measures against its staff in the midst of the COVID-19 pandemic.

For this reason, we stand in solidarity with the workers of this company and its trade union organization, who have, since August 4, 2021 in defence of their rights, bravely begun a hunger strike in various regions of Colombia, in protest against the Nutresa Company, which belongs to the conglomerate of the Antioquia Business Group GEA that currently oversees the political and economic control of the most rancid and oligarchic strata of Colombia.

It should be noted that this Business Group is closely linked to other companies in the Americas, such as: Grupo Pozuelo in Costa Rica, BLUERIBBON Meats in Panama, Cookie Factories in Texas and Oklahoma, Cameron's Coffee, a coffee company also in the United States, Tresmontes Lucchetti-TMLUC, Atlantic Food Service (corporate foods).

We therefore call on all relevant international organizations to ensure the human and labour rights of the workers of this conglomerate, and to demand that Grupo Nutresa and the Colombian Government guarantee the workers' wellbeing, security, and rights.

Equally, we invite the organizations and nuclei that comprise up the PCOA to highlight this struggle, which is headed by the **SINALTRAINAL** trade union organization, and to show solidarity with the hundreds of men and women – striking workers– and their families, and to join together to help resist the threats and aggressions of the Nutresa Group.

It is our struggles that have historically helped construct and define our identities and collective sense of who we are, according to the conditions imposed by imperialism on oppressed and colonized peoples. Therefore, we encourage all anti-imperialists to resist and continue to defend the rights of the working class. Let us continue together to create a

process of collective articulation that allows for the replenishing of the anti-imperialist struggles of the workers against the globalizing project implemented by Capitalism.

PLATFORM OF THE ANTI-IMPERIALIST WORKING CLASS

¡¡Hasta la Victoria Siempre!!

6 September 2021
